

BLACKHAWK HYDRAULIC PORTO-POWER EQUIPMENT

S-34 BLACKHAWK S-34 HYDRAULIC THIN-WALL CONDUIT BENDER

Price of S-34.....each \$203.40
Price of S-35.....each 128.00

The new Blackhawk S-34 handles thin-wall conduit (electro-metallic tubing) in sizes of $1\frac{1}{4}$ and 2 inches.

It consists of the S-35 assortment of attachments and the S-71 hydraulic unit. Owners of the S-34A Bender need only buy the S-35 assortment to handle thin-wall conduit. Likewise, owners of the S-36 Bender need only purchase the RC-159 10-ton ram and the S-35 attachment assortment to bend thin-wall conduit.

S-34 offers such exclusive advantages like remote-control for more accurate bends — all directional operation to use ram and bending frame at any angle or plane — plus the extra utility of using the hydraulic unit as jack.

Furnished in durable wooden kit.

Contents of S-35

| Part No. | Description | Qty. in S-35 | Price |
|----------|---|--------------|---------|
| Z-680 | 1 $\frac{1}{4}$ -inch Shoe (radius $7\frac{1}{4}$ inch) | 1 | \$16.00 |
| Z-681 | 1 $\frac{1}{2}$ -inch Shoe (radius $8\frac{1}{8}$ inch) | 1 | 18.50 |
| Z-682 | 2- inch Shoe (radius $9\frac{3}{8}$ inch) | 1 | 24.00 |
| Z-683 | Bender Frame Assembly | 1 | 20.00 |
| Z-691 | 1 $\frac{1}{4}$ -inch U Strap | 1 | 1.90 |
| Z-692 | 1 $\frac{1}{2}$ -inch U Strap | 1 | 1.90 |
| Z-693 | 2- inch U Strap | 1 | 2.10 |
| Z-694 | 1 $\frac{1}{4}$ -inch Sliding Support | 1 | 11.00 |
| Z-695 | 1 $\frac{1}{2}$ -inch Sliding Support | 1 | 13.00 |
| Z-696 | 2- inch Sliding Support | 1 | 17.00 |
| Z-790 | Strap Pin Assembly | 1 | 1.30 |
| Z-185 | Plunger Saddle | 1 | 1.30 |

Note: S-35 is shipped in shipping container only — if portable chest is desired in addition, specify 19538 chest.

PORTO-POWER HYDRAULIC KNOCK-OUT PUNCHES

Punches openings up to $4\frac{1}{2}$ inches for conduit in the toughest conduit boxes, troughs, panels, etc., with tons of smooth, hydraulic, remotely controlled power. No more swinging of heavy, bulky wrenches — no more loosened boxes — no more shaky set-ups — no more cramped quarters — no more sudden breaking through to throw user off balance. Porto-Power Knock-Out Punches are safe, sure and speedy.

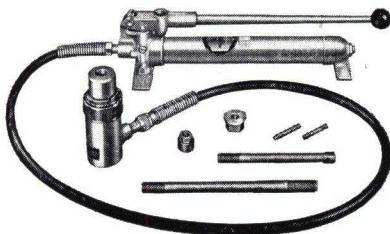

SB-40 ASST. Offers six conduit opening sizes of $\frac{1}{2}$, $\frac{3}{4}$, 1, $1\frac{1}{4}$, $1\frac{1}{2}$ and 2 inch. SB-40 includes six knock-out punches, five attachments, RC-426 hollow ram and case. See note below.....\$93.50

SB-41 ASST. Offers ten conduit opening sizes — same range as in SB-40 and 4 larger sizes of $2\frac{1}{2}$, 3, $3\frac{1}{2}$ and 4 inch. Includes ten knock-out punches, five attachments, RC-426 hollow ram and case. See note below.....\$185.00

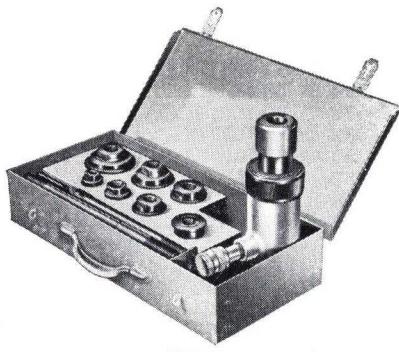

SB-44 ASST. Consists of the SB-43 hydraulic unit and six attachments to convert wrench-operated punches to hydraulic power\$99.90

SB-43 Unit includes P-76 pump, Z-913 hose and RC-426 hollow ram. Is the hydraulic unit in assortment SB-43 (not shown)\$90.00

Note: The Porto-Power P-76 Pump and Z-913 Hose which connect to the RC-426 Ram, are not included in the above sets because electrician owning a Blackhawk S-71 or -78 unit already have this equipment. If you don't own the S-71 or S-78, then purchase the P-76 Pump and Z-913 Hose in addition to the SB-40 and SB-41. If electric operation is desired, specify the P-182 Pump.
